## Important changes to your Global Transport account

Dear Valued Customer:

At Global Payments, we are committed to driving growth for our customers through continuous investments in payment innovation and expertise. As part of this commitment to delivering leading technology solutions, **Global Payments will retire the legacy Global Transport payment platform**—inclusive of our Application Programming Interface (API), Secure Ecommerce (SE), and Virtual Terminal (VT) solutions— effective **June 30, 2022**.

As an existing user of the Global Transport API and/or Secure Ecommerce (SE) solution(s), **we would like to initiate your integration to our next-generation payment gateway, Global Payments Ecommerce.**

To help ensure a seamless transition, you will maintain your existing Merchant ID(s) and your current Global Transport solution fees will not change upon migration to the new Global Payments Ecommerce platform.

Further, all of your existing customer payment tokens from Global Transport will be securely transferred to your new Global Payments Ecommerce account. Our aim is to ensure that you can begin using your new payment gateway account immediately upon migration, with no interruption to your business operations.

Additional information will be provided as we prepare for your migration. In the meantime, if you would like to begin your integration to the new Global Payments Ecommerce platform, please reach out to our integration support team at [ca.ecomsupport@globalpay.com](mailto:ca.ecomsupport@globalpay.com). They'd be happy to assist you, step-by-step, through this journey.

Should you have any questions or concerns, please do not hesitate to contact your Global Payments account representative.

Sincerely,

**Mike Clark**  
Senior Vice President, Product  
Global Payments Canada GP
